

Regional Employment Report

ADP REGIONAL EMPLOYMENT REPORT: CALIFORNIA, TEXAS, FLORIDA, NEW YORK, PENNSYLVANIA AND ILLINOIS SHOW LARGEST JOB INCREASES IN JUNE

South Atlantic, Pacific and West South Central U.S. Census Bureau Divisions Generate Largest Share of New Jobs for Second Consecutive Month

ROSELAND, N.J. – July 10, 2013 – Private sector employment increased in all nine U.S. Census Bureau Divisions during the month of June 2013, according to the monthly [ADP Regional Employment Report^{\(sm\)}](#), which is produced by [ADP®](#), a leading provider of global [human capital management](#) solutions, in collaboration with Moody's Analytics, Inc. The *ADP Regional Employment Report* measures monthly changes in regional nonfarm private employment on a seasonally adjusted basis.

"All nine U.S. Census Bureau Divisions recorded private sector job growth in June, with the South Atlantic, Pacific and West South Central generating the most new jobs for the second consecutive month," said Ahu Yildirmaz, senior director of the ADP Research Institute®. "All 29 individual U.S. states, plus the District of Columbia, tracked by the ADP Regional Employment Report, also recorded gains of varying degrees in June, with the largest job increases occurring in California, Texas, Florida, New York, Pennsylvania and Illinois. In fact, these six states accounted for more than half of all new private sector jobs for the month of June."

On July 3, 2013, the *ADP National Employment Report*® reported total U.S. private sector employment increased by a total of 188,000 jobs from May to June.

• Utah	2,450
• Virginia	5,730
• Washington	6,190
• Washington D.C.	720
• Wisconsin	980

* Sum of components may not equal total, due to rounding.

** Employment by state is determined by the location where employees work. In most cases, this approach aligns with the U.S. Bureau of Labor Statistics' measure of establishment employment, reflecting the state where an employee works. In some cases, a payroll located in a certain state may include employees from one or more states outside that state.

Additional data for the states above, including jobs data by sector and select industries is available at www.ADPemploymentreport.com.

The July 2013 *ADP Regional Employment Report* will be released at 9:00 a.m. ET on Wednesday, August 7, 2013. A full calendar of report issuance dates can be found at www.ADPemploymentreport.com.

About the *ADP Regional Employment Report*SM

The *ADP Regional Employment Report*^(SM), which is produced by ADP in collaboration with Moody's Analytics, Inc., is a monthly estimate of private nonfarm employment in nine U.S. Census Bureau divisions, as well as 29 U.S. states, plus the District of Columbia. The report is a measure of employment derived from an anonymous subset of roughly 406,000 U.S. business clients, which employ more than 23 million workers in the U.S.

About the *ADP National Employment Report*[®]

The *ADP National Employment Report*[®], which is produced by ADP in collaboration with Moody's Analytics, Inc., is a measure of employment derived from an anonymous subset of roughly 406,000 U.S.

business clients, which employ more than 23 million workers in the U.S. The *ADP Small Business Report*[®] is a monthly estimate of private nonfarm employment among companies in the U.S. with 1-49 employees and is a subset of the *ADP National Employment Report*. The data for all three reports is collected for pay periods that can be interpolated to include the week of the 12th of each month, and processed with statistical methodologies similar to those used by the U.S. Bureau of Labor Statistics to compute employment from its monthly survey of establishments. Due to this processing, this subset is modified to make it indicative of national employment levels; therefore, the resulting employment changes computed for the *ADP National Employment Report* are not representative of changes in ADP's total base of U.S. business clients.
